Alignment, page orientation - simply 1

Page orientation is extremely important. To avoid nasty surprises the pages of your delivered files must be correctly orientated (aligned).

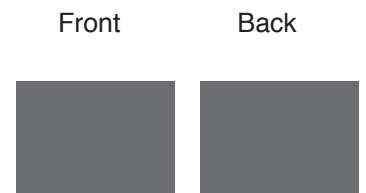

Following alignments are possible.

Alignment, page orientation - simply 1

Attention! Layout for folded buisness cards, X-mas and greeting cards

The correct page orientation (alignment) must already be correct in your layout programme. Subsequent editing of the page orientation in Acrobat only affects the screen view, not the printing template!
